

LIMITED WARRANTY DISCLAIMER

This Limited Warranty applies to treatments performed by certified Kisho detailers, using Kisho detailing products.

This limited warranty covers any defects in material or workmanship under recommended use during the warranty period. During the warranty period the licensed dealer will repair, at no charge, treatment areas that prove defective because of improper material application or workmanship, under recommended use and maintenance. The licensed dealer will redo and repair the defective area at no charge.

This warranty is against blistering, bubbling, cracking, delaminating, peeling or noticeable loss of gloss or reflectivity during the course of warranty duration from date of application or service treatment.

Ceramic coatings will not protect against paint chips, scratches or other mechanical damages.

This warranty does not apply to vehicles used for commercial purposes.

ServiceCoating.com offers a warranty:

- on the single coat of Kisho HydroGloss-90 of 60 months
- on the two coat treatment, one being Kisho ProTec-70 and the other being Kisho HydroGloss-90 of 60 months
- on the single coats of Kisho ProTec-70 of 36 months
- on the single coat of Kisho WheelSeal-02 (wheels) of 12 months.
- on the single coat of Kisho ActivGlass-01 (windows) of 6 months.

This warranty is personal to the purchaser and is not transferable or assignable.

This warranty is valid from the date of the invoice which is also date of the warranty certificate.

The purchaser's vehicle maintenance must be done according to the maintenance schedule below:

Washing

For best results wash on a bi-weekly basis to avoid excessive contamination build up.

Avoid washing in direct sunlight to minimize streaking and water spotting.

Wash from the top down leaving the dirtiest sections for last to avoid cross contamination. Use separate soap and sponge/mitt for wheels.

Drying

Always dry completely and never leave to "air" dry. Tap water contains minerals that may leave deposits creating water spots. Use quality microfiber towels for best results and avoid aggressive wiping, allowing the material to absorb the water.

Spot Removal

Never use aggressive products to polish the coating or remove surface contamination.

Never use excessive force to remove spots.

Bird droppings, tar, sap, etc. should be removed as soon as possible to avoid temporary staining or hardening on the coating. Any staining left behind from the bird droppings will break down over a few days without affecting the coating.

Terms and disclaimers

ServiceCoating.com will not accept liability if:

- neglect of the vehicle according to the prescribed regulations above
- damage caused by abrasive products of third parties
- damage caused by accident or voluntarily
- non-compliance with the conditions and requirements under this warranty.
- annual inspections are not carried out within 30 days before the anniversary date of the last service to ensure peak performance, maximum gloss and protection
- annual maintenance with Kisho 'Top-24 ceramic boost' used for the maintenance of the coating film has not been carried out to optimally protect the top layer. Kisho 'Top-24 ceramic boost' is available at cost price at ServiceCoating.com
- If the warranty certificate issued after the ceramic coating cannot be submitted.
